Mr. Portincaso;

We bought our 1963 Dodge ¾ ton Army Truck to your shop for needed maintenance work. Other shops had turned us down because of the size of the vehicle. You and your associate, Chris, seemed genuinely happy to have the opportunity to work on our truck. Even the lack of manuals to refer to did not dampen your enthusiasm.

Imagine our additional surprise when we came to pick it up and you told us there would be no charge for the work you had done and when we received the manuals to bring the truck back so you could continue tracing and repairing the electrical system.

We are looking forward to bringing our "Army Truck" back to you all additional service it may require.

Thank you;

Arthur J. Buckheister
Commander,
Watch City VFW Post 1307
